Conflict Minerals – Declaration of Compliance

Overview:

In 2010, Congress passed the Dodd-Frank Act, which directs the Commission to issue rules requiring certain companies to disclose their use of conflict minerals if those minerals are “necessary to the functionality or production of a product” manufactured by those companies. Under the Act, those minerals include tantalum, tin, gold or tungsten.

Congress enacted Section 1502 of the Act because of concerns that the exploitation and trade of conflict minerals by armed groups is helping to finance conflict in the DRC region and is contributing to an emergency humanitarian crisis. Section 1502 of the Act amends the Securities and Exchange Act of 1934 to add Section 13(p).

Axzon’s Policy:

Axzon is committed to the responsible sourcing of tantalum, tin, tungsten, gold, and cobalt in accordance with the Organization for Economic Co-operation and Development (OECD) Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas.

Axzon expects its suppliers to obtain materials from environmentally and socially responsible sources, including conflict free sources within conflict-affected and high-risk areas.
